To Whom It May Concern,

Re: Site Demolition

We have exclusively engaged the services of Site Demolition for recommendation of demolition to our clients for knock-down-rebuild projects.

After engaging several demolition companies in the past, we found that our clients were very disappointed and unhappy with false promises and escalating costs after quotes were accepted.

It was my absolute delight when Rhonda from Site Demolition contacted me. I was impressed with the level of service, professionalism and easy to deal with attitude, but more importantly their honesty.

After engaging Site Demolition we found our clients were very impressed with the reliability, standard of work carried out and the end results.

It is with absolute confidence that I can recommend Site Demolition to the person or company who reads this testimony

Yours faithfully,

George M Posa  
Sales and Marketing Manager
